

OAO LUKOIL

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(prepared in accordance with US GAAP)

As of and for the six month period ended June 30, 2007

(unaudited)

These interim consolidated financial statements were prepared by OAO LUKOIL in accordance with US GAAP and have not been audited by our independent auditor. If these financial statements are audited in the future, the audit could reveal differences in our consolidated financial results and we can not assure that any such differences would not be material.

Independent Accountants' Review Report

The Board of Directors of OAO LUKOIL:

We have reviewed the accompanying consolidated balance sheet of OAO LUKOIL and its subsidiaries as of June 30, 2007, the related consolidated statements of income for the three-month and six-month periods ended June 30, 2007 and 2006 and the related consolidated statements of stockholders' equity and comprehensive income and cash flows for the six-month periods ended June 30, 2007 and 2006 in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of the management of OAO LUKOIL.

A review consists principally of inquiries of company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim consolidated financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

The accompanying notes are an integral part of these interim consolidated financial statements.

Note 1. Organization and environment

The primary activities of OAO LUKOIL (the “Company”) and its subsidiaries (together, the “Group”) are oil exploration, production, refining, marketing and distribution. The Company is the ultimate parent entity of this vertically integrated group of companies.

The Group was established in accordance with Presidential Decree 1403, issued on November 17, 1992 under which, on April 5, 1993, the Government of the Russian Federation transferred to the Company 51% of the voting shares of fifteen enterprises, and Government Resolution 861 issued on September 1, 1995 under which, during 1995, a further nine enterprises were transferred to the Group. Since 1995 the Group has carried out a share exchange program to increase its shareholding in each of the twenty-four founding subsidiaries to 100%.

From formation, the Group has expanded substantially through consolidation of its interests, acquisition of new companies and establishment of new businesses.

Business and economic environment

The Russian Federation has been experiencing political and economic change, which has affected and will continue to affect the activities of enterprises operating in this environment. Consequently, operations in the Russian Federation involve risks, which do not typically exist in other markets.

The accompanying interim consolidated financial statements reflect management’s assessment of the impact of the business environment in the countries in which the Group operates on the operations and the financial position of the Group. The future business environments may differ from management’s assessment.

Basis of preparation

The accompanying interim consolidated financial statements and notes thereto have not been audited by independent accountants, except for the balance sheet as of December 31, 2006. In the opinion of the Company’s management, the interim consolidated financial statements include all adjustments and disclosures necessary to present fairly the Group’s financial position, results of operations and cash flows for the interim periods reported herein. These adjustments were of a normal recurring nature.

These interim consolidated financial statements have been prepared by the Company in accordance with accounting principles generally accepted in the United States of America (“US GAAP”) as applicable to interim financial statements. These financial statements should be read in conjunction with the Group’s December 31, 2006 annual consolidated financial statements.

The results for the six-month period ended June 30, 2007 are not necessarily indicative of the results expected for the full year.

Note 2. Summary of significant accounting policies

Principles of consolidation

These interim consolidated financial statements include the financial position and results of the Company, controlled subsidiaries of which the Company directly or indirectly owns more than 50% of the voting interest, unless minority interest shareholders have substantive participating rights, and variable interest entities where the Group is determined to be the primary beneficiary. Other significant investments in companies of which the Company directly or indirectly owns between 20% and 50% of the voting interest and over which it exercises significant influence but not control, are accounted for using the equity method of accounting. Investments in companies of which the Company directly or indirectly owns more than 50% of the voting interest but where minority interest shareholders have substantive participating rights are accounted for using the equity method of accounting. Undivided interests in oil and gas joint ventures are accounted for using the proportionate consolidation method. Investments in other companies are recorded at cost. Equity investments and investments in other companies are included in “Investments” in the consolidated balance sheet.

Note 2. Summary of significant accounting policies (continued)

Use of estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant items subject to such estimates and assumptions include the carrying value of oil and gas properties and other property, plant and equipment, goodwill impairment assessment, asset retirement obligations, deferred income taxes, valuation of financial instruments, and obligations related to employee benefits. Eventual actual amounts could differ from those estimates.

Revenue

Revenues from the production and sale of crude oil and petroleum products are recognized when title passes to customers. Revenues include excise on petroleum products sales and duties on export sale of crude oil and petroleum products. Revenues are reported net of value added tax.

Revenues from non-cash sales are recognized at the fair market value of the crude oil and petroleum products sold.

Foreign currency translation

The Company maintains its accounting records in Russian rubles. The Company's functional currency is the US dollar and the Group's reporting currency is the US dollar.

For operations in the Russian Federation, hyperinflationary economies and other operations where the US dollar is the functional currency, monetary assets and liabilities have been translated into US dollars at the rate prevailing at each balance sheet date. Non-monetary assets and liabilities have been translated into US dollars at historical rates. Revenues, expenses and cash flows have been translated into US dollars at rates, which approximate actual rates at the date of the transaction. Translation differences resulting from the use of these rates are included in the consolidated statement of income.

For the majority of operations outside the Russian Federation, the US dollar is the functional currency. For certain other operations outside the Russian Federation, where the US dollar is not the functional currency and the economy is not hyperinflationary, assets and liabilities are translated into US dollars at year-end exchange rates and revenues and expenses are translated at average exchange rates for the year. Resulting translation adjustments are reflected as a separate component of comprehensive income.

Foreign currency transaction gains and losses are included in the consolidated statement of income.

As of June 30, 2007 and December 31, 2006, exchange rates of 25.82 and 26.33 Russian rubles to the US dollar, respectively, have been used for translation purposes.

The Russian ruble and other currencies of republics of the former Soviet Union are not readily convertible outside of their countries. Accordingly, the translation of amounts recorded in these currencies into US dollars should not be construed as a representation that such currency amounts have been, could be or will in the future be converted into US dollars at the exchange rate shown or at any other exchange rate.

Cash and cash equivalents

Cash and cash equivalents include all highly liquid investments with an original maturity of three months or less.

Note 2. Summary of significant accounting policies (continued)

Cash with restrictions on immediate use

Cash funds for which restrictions on immediate use exist are accounted for within other non-current assets.

Accounts and notes receivable

Accounts and notes receivable are recorded at their transaction amounts less provisions for doubtful debts. Provisions for doubtful debts are recorded to the extent that there is a likelihood that any of the amounts due will not be obtained. Non-current receivables are discounted to the present value of expected cash flows in future periods using the original discount rate.

Inventories

Inventories, consisting primarily of stocks of crude oil, petroleum products and materials and supplies, are stated at the lower of cost or market value. Cost is determined using an "average cost" method.

Investments

Debt and equity securities are classified into one of three categories: trading, available-for-sale, or held-to-maturity.

Trading securities are bought and held principally for the purpose of selling in the near term. Held-to-maturity securities are those securities in which a Group company has the ability and intent to hold until maturity. All securities not included in trading or held-to-maturity are classified as available-for-sale.

Trading and available-for-sale securities are recorded at fair value. Held-to-maturity securities are recorded at cost, adjusted for the amortization or accretion of premiums or discounts. Unrealized holding gains and losses on trading securities are included in the consolidated statement of income. Unrealized holding gains and losses, net of the related tax effect, on available-for-sale securities are reported as a separate component of comprehensive income until realized. Realized gains and losses from the sale of available-for-sale securities are determined on a specific identification basis. Dividends and interest income are recognized in the consolidated statement of income when earned.

A permanent decline in the market value of any available-for-sale or held-to-maturity security below cost is accounted for as a reduction in the carrying amount to fair value. The impairment is charged to the consolidated statement of income and a new cost base for the security is established. Premiums and discounts are amortized or accreted over the life of the related held-to-maturity or available-for-sale security as an adjustment to yield using the effective interest method and such amortization and accretion is recorded in the consolidated statement of income.

Property, plant and equipment

Oil and gas properties are accounted for using the successful efforts method of accounting whereby property acquisitions, successful exploratory wells, all development costs, and support equipment and facilities are capitalized. Unsuccessful exploratory wells are expensed when a well is determined to be non-productive. Other exploratory expenditures, including geological and geophysical costs are expensed as incurred.

Group continues to capitalize costs of exploratory wells and exploratory-type stratigraphic wells for more than one year after the completion of drilling if the well has found a sufficient quantity of reserves to justify its completion as a producing well and the company is making sufficient progress assessing the reserves and the economic and operating viability of the project. If these conditions are not met or if information that raises substantial doubt about the economic or operational viability of the project is obtained, the well would be assumed impaired, and its costs, net of any salvage value, would be charged to expense.

Note 2. Summary of significant accounting policies (continued)

Depreciation, depletion and amortization of capitalized costs of oil and gas properties is calculated using the unit-of-production method based upon proved reserves for the cost of property acquisitions and proved developed reserves for exploration and development costs.

Production and related overhead costs are expensed as incurred.

Depreciation of assets not directly associated with oil production is calculated on a straight-line basis over the economic lives of such assets, estimated to be in the following ranges:

| | | |
|-----------------------------|--------|-------|
| Buildings and constructions | 5 – 40 | Years |
| Machinery and equipment | 5 – 20 | Years |

In addition to production assets, certain Group companies also maintain and construct social assets for the use of local communities. Such assets are capitalized only to the extent that they are expected to result in future economic benefits to the Group. If capitalized, they are depreciated over their estimated economic lives.

Asset retirement obligations

The Group records the fair value of liabilities related to its legal obligations to abandon, dismantle or otherwise retire tangible long-lived assets in the period in which the liability is incurred. A corresponding increase in the carrying amount of the related long-lived asset is also recorded. Subsequently, the liability is accreted for the passage of time and the related asset is depreciated using the unit-of-production method.

Goodwill and other intangible assets

Goodwill represents the excess of the cost of an acquired entity over the net of the amounts assigned to assets acquired and liabilities assumed. It is assigned to reporting units as of the acquisition date. Goodwill is not amortized, but is tested for impairment at least on an annual basis and between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. The impairment test requires estimating the fair value of a reporting unit and comparing it with its carrying amount, including goodwill assigned to the reporting unit. If the estimated fair value of the reporting unit is less than its net carrying amount, including goodwill, then the goodwill is written down to its implied fair value.

Intangible assets with indefinite useful lives are tested for impairment at least annually. Intangible assets that have limited useful lives are amortized on a straight-line basis over the shorter of their useful or legal lives.

Impairment of long-lived assets

Long-lived assets, such as oil and gas properties, other property, plant, and equipment, and purchased intangibles subject to amortization, are assessed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset group may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset group to the estimated undiscounted future cash flows expected to be generated by that group. If the carrying amount of an asset group exceeds its estimated undiscounted future cash flows, an impairment charge is recognized by writing down the carrying amount to the estimated fair value of the asset group, generally determined as discounted future net cash flows. Assets to be disposed of are separately presented in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated. The assets and liabilities of a disposed group classified as held for sale are presented separately in the appropriate asset and liability sections of the balance sheet.

Note 2. Summary of significant accounting policies (continued)

Deferred income taxes

The estimated effective income tax rate expected to be applicable for the full fiscal year is used in providing for income taxes on a current year-to-date basis. The estimated effective tax rate reflects statutory tax rates for each jurisdiction, the deductibility of expenses and taxability of income, anticipated tax credits and other available tax planning alternatives. The effect on deferred income tax assets and liabilities of a change in tax rates is recognized in the consolidated statement of income in the reporting period that includes the enactment date and is not accounted for as an adjustment of the annual effective tax rate.

Interest-bearing borrowings

Interest-bearing borrowings are initially recorded at the value of net proceeds received. Any difference between the net proceeds and the redemption value is amortized at a constant rate over the term of the borrowing. Amortization is included in the consolidated statement of income each year and the carrying amounts are adjusted as amortization accumulates.

If borrowings are repurchased or settled before maturity, any difference between the amount paid and the carrying amount is recognized in the consolidated statement of income in the period in which the repurchase or settlement occurs.

Pension benefits

The expected costs in respect of pension obligations of Group companies are estimated by the management based on pension obligations as of the most recent annual period, which are determined by an independent actuary. Obligations in respect of each employee are accrued over the reporting periods during which the employee renders service in the Group.

Treasury stock

Purchases by Group companies of the Company's outstanding stock are recorded at cost and classified as treasury stock within Stockholders' equity. Shares shown as Authorized and Issued include treasury stock. Shares shown as Outstanding do not include treasury stock.

Earnings per share

Basic earnings per share is computed by dividing net income available to common stockholders by the weighted-average number of shares of common stock outstanding during the reporting period. A calculation is carried out to establish if there is potential dilution in earnings per share if convertible securities were to be converted into shares of common stock or contracts to issue shares of common stock were to be exercised. If there is such dilution, diluted earnings per share is presented.

Contingencies

Certain conditions may exist as of the balance sheet date, which may result in losses to the Group but the impact of which will only be resolved when one or more future events occur or fail to occur.

If a Group company's assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability is accrued and charged to the consolidated statement of income. If the assessment indicates that a potentially material loss is not probable, but is reasonably possible, or is probable, but cannot be estimated, then the nature of the contingent liability, together with an estimate of the range of possible loss, is disclosed in the notes to the consolidated financial statements. Loss contingencies considered remote or related to unasserted claims are generally not disclosed unless they involve guarantees, in which case the nature of the guarantee is disclosed.

Note 2. Summary of significant accounting policies (continued)

Environmental expenditures

Estimated losses from environmental remediation obligations are generally recognized no later than completion of remedial feasibility studies. Group companies accrue for losses associated with environmental remediation obligations when such losses are probable and reasonably estimable. Such accruals are adjusted as further information becomes available or circumstances change. Costs of expected future expenditures for environmental remediation obligations are not discounted to their present value.

Use of derivative instruments

The Group's derivative activity is limited to certain petroleum products marketing and trading outside of its physical crude oil and petroleum products businesses and hedging of commodity price risks. Currently this activity involves the use of futures and swaps contracts together with purchase and sale contracts that qualify as derivative instruments. The Group accounts for these activities under the mark-to-market methodology in which the derivatives are revalued each accounting period. Resulting realized and unrealized gains or losses are presented in the consolidated statement of income on a net basis. Unrealized gains and losses are carried as assets or liabilities on the consolidated balance sheet.

Comparative amounts

Certain prior period amounts have been reclassified to conform with current period presentation.

Recent accounting pronouncements

In February 2007, FASB issued SFAS No. 159, "*The Fair Value Option for Financial Assets and Financial Liabilities.*" This Statement expands the possibility of using fair value measurements and permits enterprises to choose to measure certain financial assets and financial liabilities at fair value. Enterprises shall report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent period. The Statement is effective in the first quarter 2008. The Group is currently assessing the effect of adoption of SFAS No. 159.

In September 2006, the FASB issued SFAS No. 158, "*Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans – an amendment of FASB Statements No. 87, 88, 106 and 132(R).*" This Statement requires an employer that sponsors one or more single-employer defined benefit plans to: (a) Recognize the funded status of a benefit plan in its statement of financial position; (b) Recognize as a component of other comprehensive income, net of tax, the gains or losses and prior service costs or credits that arise during the period but are not recognized as components of net periodic benefit cost; (c) Measure defined benefit plan assets and obligations as of the date of the employer's fiscal year-end statement of financial position (with limited exceptions); (d) Disclose in the notes to financial statements additional information about certain effects on net periodic benefit cost for the next fiscal year that arise from delayed recognition of the gains or losses, prior service costs or credits, and transition asset or obligation. The provisions of this Statement were effective December 31, 2006, except for the requirement to measure plan assets and benefit obligations as of the date of the employer's fiscal year-end, which is effective December 31, 2008. The adoption of the provisions of SFAS No. 158 did not have a material impact on the Group's results of operations, financial position or cash flows.

In September 2006, the FASB issued SFAS No. 157, "*Fair Value Measurements,*" which establishes a single authoritative definition of fair value, sets out a framework for measuring fair value and requires additional disclosures about fair value measurements. This Statement does not require any new fair value measurements but is expected to increase the consistency of those measurements. The Group is required to adopt the provisions of SFAS No. 157 in the first quarter 2008 and does not expect any material impact on its financial statements upon adoption.

OA O LUKOIL**Notes to Interim Consolidated Financial Statements (unaudited)**
(Millions of US dollars, unless otherwise noted)**Note 2. Summary of significant accounting policies (continued)**

In June 2006, the FASB issued FASB Interpretation No. 48, “*Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109*” (FIN 48). This Interpretation clarifies the accounting for uncertainty in income taxes recognized in an enterprise’s financial statements in accordance with FASB Statement No. 109, “*Accounting for Income Taxes.*” The Group adopted the provisions of FIN 48 in the first quarter 2007. The adoption of the provisions of Interpretation No. 48 did not have a material impact on the Group’s results of operations, financial position or cash flows.

In June 2006, the FASB ratified the consensus reached by the EITF on Issue No. 06-3, “*How Taxes Collected from Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement (That Is, Gross versus Net Presentation).*” The consensus requires disclosure of either the gross or net presentation, and any such taxes reported on a gross basis should be disclosed in the interim and annual financial statements. The Group adopted the provisions of EITF Issue No. 06-3 in 2006. The adoption of the Issue did not have a material impact on the Group’s financial statements.

In December 2004, the FASB issued SFAS No. 123(R), “*Share-Based Payment,*” which revises SFAS No. 123 and supersedes Accounting Principles Board (APB) Opinion No. 25 regarding stock-based employee compensation plans. SFAS No. 123(R) requires all share-based payments to employees, including grants of employee stock options, to be valued at fair value on the date of grant and as of each reporting date (for liability classified awards) and to be expensed over the applicable vesting period. The adoption of the provisions of SFAS No. 123(R) during the first quarter 2006 did not have a material impact on the Group’s results of operations, financial position or cash flows.

Note 3. Taxes

Operations in the Russian Federation are subject to Federal and city income tax rates that total 9.5% and a regional income tax rate that varies from 10.5% to 14.5% at the discretion of the individual regional administration. The combined statutory tax rate in the Russian Federation is 24%. The Group’s foreign operations are subject to taxes at the tax rates applicable to the jurisdictions in which they operate.

The Group’s effective income tax rate for the periods presented differs from the statutory income tax rate primarily due to domestic and foreign rate differences and the incurrence of costs that are either not tax deductible or only deductible to a certain limit.

Note 4. Cash and cash equivalents

OA O LUKOIL**Notes to Interim Consolidated Financial Statements (unaudited)**
(Millions of US dollars, unless otherwise noted)**Note 8. Property, plant and equipment and asset retirement obligations (continued)**

As of June 30, 2007 and December 31, 2006, the asset retirement obligation amounted to \$696 million and \$618 million, respectively, of which \$10 million was included in "Other current liabilities" in the consolidated balance sheets as of each balance sheet date. During the six-month periods ended June 30, 2007 and 2006, asset retirement obligations changed as follows:

| | For the six months ended June 30, 2007 | For the six months ended June 30, 2006 |
|--|---|---|
| Asset retirement obligations as of January 1 | 618 | 397 |

| Foreign currency translation and other adjustments | 12 | 30 |
| Asset retirement obligations as of June 30 | 696 | 488 |

Note 9. Goodwill and other intangible assets

The carrying value of goodwill and other intangible assets as of June 30, 2007 and December 31, 2006 was as follows:

| | As of June 30, 2007 | As of December 31, 2006 |
|---|------------------------|----------------------------|
| Amortized intangible assets | | |
| Software | 372 | 327 |
| Licenses and other assets | 58 | 52 |
| Goodwill | 476 | 412 |
| Total goodwill and other intangible assets | 906 | 791 |

All goodwill amounts relate to the refining, marketing and distribution segment. As a result of the acquisition of 376 petrol stations in Europe the Group recognized goodwill in the amount of \$64 million (refer to Note 16. Business combinations).

Note 10. Dispositions of subsidiaries and assets

In April 2007, a Group company completed the sale of 50% of its interest in Caspian Investment Resources Ltd. ("Caspian", formerly Nelson Resources Limited), which has exploration and production operations in western Kazakhstan, to Mittal Investments S.A.R.L. for \$980 million. In addition, Mittal Investments S.A.R.L. paid a liability in the amount of approximately \$175 million, which represented 50% of Caspian's outstanding debt to Group companies.

In December 2005, the Company made a decision to sell ten tankers. A Group company finalized the sale of eight tankers in May 2006 for a price that approximated their carrying value of \$190 million. The sale of the remaining two tankers was expected to be finalized in July 2007, the finalization of this transaction was extended to March 2008. The price for these remaining tankers approximates their carrying value of \$75 million. As of June 30, 2007 and December 31, 2006, the Group classified these tankers as assets held for sale in the consolidated balance sheets.

Note 11. Short-term borrowings and current portion of long-term debt

| | As of June 30, 2007 | As of December 31, 2006 |
|--|------------------------|----------------------------|
| Short-term borrowings from third parties | 927 | 949 |
| Short-term borrowings from related parties | 17 | 52 |
| Current portion of long-term debt | 298 | 376 |
| Total short-term borrowings and current portion of long-term debt | 1,242 | 1,377 |

OA O LUKOIL**Notes to Interim Consolidated Financial Statements (unaudited)**
(Millions of US dollars, unless otherwise noted)**Note 11. Short-term borrowings and current portion of long-term debt (continued)**

Short-term borrowings are unsecured and primarily payable in US dollars. The weighted-average interest rate on short-term borrowings from third parties was 5.53% and 5.64% per annum as of June 30, 2007 and December 31, 2006, respectively.

Note 12. Long-term debt

| | As of June 30, 2007 | As of December 31, 2006 |
|---|------------------------|----------------------------|
| Long-term loans and borrowings from third parties | 2,226 | 3,277 |
| Long-term loans and borrowings from related parties | 1,398 | 1,043 |
| 3.5% Convertible US dollar bonds, maturing 2007 | 4 | 4 |
| 6.356% Non-convertible US dollar bonds, maturing 2017 | 500 | - |
| 6.656% Non-convertible US dollar bonds, maturing 2022 | 500 | - |
| 7.25% Russian ruble bonds, maturing 2009 | 232 | 228 |
| 7.10% Russian ruble bonds, maturing 2011 | 310 | 304 |
| 7.40% Russian ruble bonds, maturing 2013 | 232 | 228 |
| Capital lease obligations | 87 | 99 |
| Total long-term debt | 5,489 | 5,183 |
| Current portion of long-term debt | (298) | (376) |
| Total non-current portion of long-term debt | 5,191 | 4,807 |

Long-term loans and borrowings

Long-term loans and borrowings are primarily repayable in US dollars, maturing from 2007 through 2035. Approximately 8% of this debt is secured by export sales and property, plant and equipment. The weighted-average interest rate on long-term loans and borrowings from third parties was 6.26% and 6.23% per annum as of June 30, 2007 and December 31, 2006, respectively.

Non-convertible US dollar bonds

In June 2007, a Group company issued non-convertible bonds totaling \$1 billion. \$500 million were placed with a maturity of 10 years and a coupon yield of 6.356% per annum. Another \$500 million were placed with a maturity of 15 years and a coupon yield of 6.656% per annum. All bonds were placed at nominal value and have a half year coupon period.

Convertible US dollar bonds

On November 29, 2002, a Group company issued 350,000 3.5% convertible bonds with a face value of \$1,000 each, maturing on November 29, 2007, and exchangeable for 12.246 (previously 12.112) global depository receipts ("GDRs") of the Company per bond. The bonds are convertible into GDRs on or after January 9, 2003 up to the maturity dates. The GDRs are exchangeable into four shares of common stock of the Company. Bonds not converted by the maturity date must be redeemed for cash. The redemption price at maturity will be 120.53% of the face value in respect of these bonds. A Group company may redeem the bonds for cash prior to maturity, subject to certain restrictions and early redemption charges. The carrying amount of the bonds is being accreted to their redemption value with the accreted amount being charged to the consolidated statement of income.

As of June 30, 2007, bondholders had converted 346,259 bonds into 16.8 million shares of common stock of the Company. Subsequent to period end bondholders had not converted any additional bonds.

Group companies held sufficient treasury stock to permit the full conversion of the bonds to GDRs.

OA O LUKOIL**Notes to Interim Consolidated Financial Statements (unaudited)**
(Millions of US dollars, unless otherwise noted)**Note 12. Long-term debt (continued)*****Russian ruble bonds***

In December 2006, the Company issued 14 million non-convertible bonds with a face value of 1,000 Russian rubles each. Eight million bonds were placed with a maturity of 5 years and a coupon yield of 7.10% per annum and six million bonds were placed with a maturity of 7 years and a coupon yield of 7.40% per annum. All bonds were placed at the face value and have a half year coupon period.

In November 2004, the Company issued 6 million non-convertible bonds with a face value of 1,000 Russian rubles each, maturing on November 23, 2009. For a period of 7 days commencing on November 13, 2007 the bonds holders have the right to demand the Company repurchase the bonds. The bonds have a half year coupon period and bear interest at 7.25% per annum.

Note 13. Pension benefits

The Company sponsors a post employment and post retirement benefits program that covers the majority of the Group's employees. The plan primarily consists of a defined benefit plan enabling employees to contribute a portion of their salary to the plan and at retirement to receive a lump sum amount from the Company equal to all past contributions made by the employee up to 7% of their annual salary. This plan is administered by a non-state pension fund, LUKOIL-GARANT, and provides pension benefits primarily based on years of service and final remuneration levels. The Company also provides several long-term employee benefits such as death-in-service benefit and lump-sum payments upon retirement of a defined benefit nature and other defined benefits to certain old age and disabled pensioners who have not vested any pensions under the pension plan.

Components of net periodic benefit cost were as follows:

| | For the three months ended June 30, 2007 | For the three months ended June 30, 2006 | For the six months ended June 30, 2007 | For the six months ended June 30, 2006 |
|--|--|--|--|--|
| Service cost | 4 | 3 | 7 | 6 |
| Interest cost | 3 | 4 | 7 | 9 |
| Less expected return on plan assets | (2) | (2) | (4) | (4) |
| Amortization of prior service cost | 2 | 1 | 4 | 3 |
| Actuarial gain | (1) | - | (2) | (1) |
| Total net periodic benefit cost | 6 | 6 | 12 | 13 |

Note 14. Stockholders' equity

The calculation of diluted earnings per share for the reporting periods was as follows:

| | For the three months ended June 30, 2007 | For the three months ended June 30, 2006 | For the six months ended June 30, 2007 | For the six months ended June 30, 2006 |
|---|--|--|--|--|
| Net income | 2,517 | 2,321 | 3,816 | 4,010 |
| Add back convertible debt interest (net of tax at effective rate) | | | | |
| 3.5% Convertible US dollar bonds, maturing 2007 | - | 1 | - | 2 |
| Total diluted net income | 2,517 | 2,322 | 3,816 | 4,012 |
| Weighted average number of outstanding common shares (thousands of shares) | 831,188 | 827,495 | 830,878 | 827,511 |
| Add back treasury shares held in respect of convertible debt (thousands of shares) | 183 | 2,665 | 183 | 2,794 |
| Weighted average number of outstanding common shares, after dilution (thousands of shares) | 831,371 | 830,160 | 831,061 | 830,305 |

Note 14. Stockholders' equity (continued)

Dividends

At the annual stockholders' meeting on June 28, 2007, dividends were declared for 2006 in the amount of 38.00 Russian rubles per common share, which at the date of the meeting was equivalent to \$1.47. Dividends payable of \$1,237 million and \$7 million are included in "Other current liabilities" in consolidated balance sheet as of June 30, 2007 and December 31, 2006, respectively.

At the annual stockholders' meeting on June 28, 2006, dividends were declared for 2005 in the amount of 33.00 Russian rubles per common share, which at the date of the decision was equivalent to \$1.22.

Note 15. Financial and derivative instruments

Commodity derivative instruments

The Group uses derivative instruments in its international petroleum products marketing and trading operations. The types of derivative instruments used include futures and swap contracts, used for hedging purposes, and purchase and sale contracts that qualify as derivative instruments. The Group maintains a system of controls over these activities that includes policies covering the authorization, reporting and monitoring of derivative activity. The Group recognized expenses from the use of derivative instruments of \$45 million, \$98 million, \$198 million and \$173 million during the three months ended June 30, 2007 and 2006 and during the six months ended June 30, 2007 and 2006, respectively. The result is included in "Cost of purchased crude oil, gas and products" in the consolidated statements of income. The fair value of derivative contracts outstanding and recorded on the consolidated balance sheets was a net liability of \$50 million and a net asset of \$43 million as of June 30, 2007 and December 31, 2006, respectively.

Fair value

The fair values of cash and cash equivalents, current accounts and notes receivable, and liquid securities are approximately equal to their value as disclosed in the consolidated financial statements.

The fair value of long-term receivables included in other non-current assets approximates the amounts disclosed in the consolidated financial statements as a result of discounting using estimated market interest rates for similar financing arrangements. The fair value of long-term debt differs from the amount disclosed in the consolidated financial statements. The estimated fair value of long-term debt as of June 30, 2007 and December 31, 2006 was \$5,622 million and \$5,299 million, respectively, as a result of discounting using estimated market interest rates for similar financing arrangements. These amounts include all future cash outflows associated with the long-term debt repayments, including the current portion, and interest.

Note 16. Business combinations

In June 2007, the Group finalized the acquisition of a 100% interest in companies owning 376 petrol stations in Europe for approximately \$442 million from ConocoPhillips, its related party. The Group acquired these petrol stations to expand its presence in the European market. The purchase price is subject to finalization of working capital and other adjustments. The results of operations of these petrol stations are included in the Group's consolidated statements of income from the date of acquisition. The Group made a preliminary estimation of the fair value of the assets acquired and liabilities assumed at the date of acquisition. As a result the Group recognized goodwill, property, plant and equipment, other assets and liabilities amounting to \$64 million, \$413 million, \$203 million and \$238 million, respectively. Goodwill relates to the refinery, marketing and distribution segment and is non-deductible for tax purposes. The Group will finalize the purchase price allocation upon the completion of an independent valuation of the fair value of property, plant and equipment.

In January 2007, a Group company acquired the remaining 34.0% of the share capital of OOO Geoilbent for \$300 million. The acquisition increased the Group's ownership to 100%. Prior to this acquisition the Group accounted for its investment using the equity method of accounting due to the fact that minority shareholder held substantive participating rights. OOO Geoilbent was an exploration and production company operating in the West Siberian region of the Russian Federation.

Note 16. Business combinations (continued)

The acquisition of the petrol stations and the additional interest in OOO Geoilbent did not have a material impact on the Group’s consolidated operations for the six months ended June 30, 2007. Therefore, no pro-forma income statement information has been provided.

In June 2006, a Group company acquired 100% of the share capital of Khanty-Mansiysk Oil Corporation (“KMOC”) from Marathon Oil Corporation for \$847 million (including \$249 million repayment of KMOC debt), which is subject to finalisation of working capital and other adjustments in accordance with the purchase agreement.

Note 17. Consolidation of Variable Interest Entity

The Group and ConocoPhillips have a joint venture Narianmarneftegaz (“NMNG”) which develops oil reserves in the Timan-Pechora region of the Russian Federation. The Group and ConocoPhillips have equal voting rights over the joint venture’s activity and effective ownership interests of 70% and 30%, respectively.

The Group determined that NMNG is a variable interest entity as the Group’s voting rights are not proportionate to its ownership rights and all of NMNG’s activities are conducted on behalf of the Group and ConocoPhillips, its related party. The Group is considered to be the primary beneficiary and has consolidated NMNG.

NMNG’s total assets were approximately \$4.0 billion and \$3.0 billion as of June 30, 2007 and December 31, 2006, respectively.

The Group and ConocoPhillips agreed to provide financing to NMNG by means of long-term loans in proportion to their effective ownership interests. These loans mature in 2035, with the option to be extended with the agreement of both parties. As of June 30, 2007, borrowings under these agreements bear fixed interest in the range of 6.8% to 8.2% per annum.

As of June 30, 2007, the amount outstanding to ConocoPhillips from NMNG was \$1,146 million, which consists of a number of loans with a weighted-average interest rate of 7.90% per annum. This amount is presented within “Long-term loans and borrowings from related parties.”

Note 18. Financial guarantees

The Group has entered into various guarantee arrangements. These arrangements arose in transactions related to enhancing the credit standing of an affiliated company LUKARCO and borrowings of the Group’s suppliers.

The following table provides the undiscounted maximum amount of potential future payments for each major group of guarantees:

| | As of June 30, 2007 | As of December 31, 2006 |
|--------------------------------------|------------------------|----------------------------|
| Guarantees of equity investee’s debt | 385 | 410 |
| Guarantees of third parties’ debt | - | 8 |
| Total | 385 | 418 |

Note 18. Financial guarantees (continued)

Guarantees on debt

LUKARCO, an investee recorded under the equity method of accounting has a loan facility on which \$653 million was drawn as of June 30, 2007. Borrowings under this loan bear interest at LIBOR plus 2.5% per annum, maturing by May 1, 2012. To enhance the credit standing of LUKARCO, the Company guarantees 54% of the interest payment as well as the repayment of 54% of the loan at maturity. As of June 30, 2007, the total amount of the Company's guarantee was \$385 million, which includes \$32 million related to accrued interest on the outstanding amount. Payments are due if the Company is notified that LUKARCO is not able to fulfill its obligations at maturity date. The Company's guarantee is secured by its 54% interest in LUKARCO with the carrying value of \$406 million and \$358 million as of June 30, 2007 and December 31, 2006, respectively. There are no material amounts being carried as liabilities for the Group's obligations under this guarantee.

Note 19. Commitments and contingencies

Capital expenditure, exploration and investment programs

The Group owns and operates refineries in Bulgaria (LUKOIL Neftochim Bourgas AD) and Romania (Petrotel-LUKOIL). As a result of Bulgaria and Romania joining the European Union in 2007, LUKOIL Neftochim Bourgas AD and Petrotel-LUKOIL are required to upgrade their refining plants to comply with the requirements of European Union legislation in relation to the quality of produced petroleum products and environmental protection. These requirements are stricter than existing Bulgarian and Romanian legislation. The Group estimates the amount of future capital commitment required to upgrade LUKOIL Neftochim Bourgas AD and Petrotel-LUKOIL to be approximately \$867 million and \$51 million, respectively.

Group companies have commitments under the terms of existing license agreements in the Russian Federation of \$1,263 million over the next 5 years and of \$139 million thereafter. Management believes that a significant portion of these commitments will be fulfilled by the services to be provided by Eurasia Drilling Company and ZAO Globalstroy-Engineering as discussed below.

In connection with the sale of LUKOIL-Burenie in 2004 the Group signed a five year contract for drilling services. Under the terms of the contract, drilling services of \$413 million, \$711 million, and \$716 million will be provided by LUKOIL-Burenie (now Eurasia Drilling Company) during the second half of 2007, fiscal years 2008 and 2009, respectively.

The Company has signed a four-year agreement for the provision of construction, engineering and technical services with ZAO Globalstroy-Engineering. The volume of these services is based on the Group's capital construction program, which is re-evaluated on an annual basis. The Group estimates the amount of capital commitment under this agreement for the second half of 2007, fiscal years 2008 and 2009 to be approximately \$811 million, \$1,062 million and \$833 million, respectively.

A Group company has commitment to purchase equipment for modernization of the petrochemical refinery in Ukraine over the next 3 years. The outstanding portion of this commitment is approximately \$168 million.

Group companies have commitments for capital expenditure contributions in the amount of \$332 million related to various production sharing agreements over the next 30 years.

Group companies have investment commitments relating to oil deposits in Iraq of \$495 million to be spent within 3 years from when exploitation becomes possible. Due to significant changes in the political and economic situation in Iraq the future of this contract is not clear, however, the Group is actively pursuing its legal right to this contract in Iraq in alliance with ConocoPhillips.

Note 19. Commitments and contingencies (continued)

Operating lease obligations

A Group company has commitments of \$1,707 million primarily for the lease of vessels and petroleum distribution outlets over the next 9 years. Commitments for minimum rentals under these leases as of June 30, 2007 are as follows:

| | As of June 30, 2007 |
|---|--------------------------------|
| For the six-months ending December 31, 2007 | 228 |
| 2008 fiscal year | 377 |
| 2009 fiscal year | 319 |
| 2010 fiscal year | 196 |
| 2011 fiscal year | 151 |
| beyond | 436 |

Insurance

The insurance industry in the Russian Federation and certain other areas where the Group has operations is in the course of development. Management believes that the Group has adequate property damage coverage for its main production assets. In respect of third party liability for property and environmental damage arising from accidents on Group property or relating to Group operations, the Group has insurance coverage that is generally higher than insurance limits set by the local legal requirements. Management believes that the Group has adequate insurance coverage of the risks, which could have a material effect on the Group's operations and financial position.

Environmental liabilities

Group companies and their predecessor entities have operated in the Russian Federation and other countries for many years and, within certain parts of the operations, environmental related problems have developed. Environmental regulations are currently under consideration in the Russian Federation and other areas where the Group has operations. Group companies routinely assess and evaluate their obligations in response to new and changing legislation.

As liabilities in respect of the Group's environmental obligations are able to be determined, they are charged against income. The likelihood and amount of liabilities relating to environmental obligations under proposed or any future legislation cannot be reasonably estimated at present and could become material. Under existing legislation, however, management believes that there are no significant unrecorded liabilities or contingencies, which could have a materially adverse effect on the operating results or financial position of the Group.

Social assets

Certain Group companies contribute to Government sponsored programs, the maintenance of local infrastructure and the welfare of their employees within the Russian Federation and elsewhere. Such contributions include assistance with the construction, development and maintenance of housing, hospitals and transport services, recreation and other social needs. The funding of such assistance is periodically determined by management and is appropriately capitalized or expensed as incurred.

Note 19. Commitments and contingencies (continued)***Taxation environment***

The taxation systems in the Russian Federation and other emerging markets where Group companies operate are relatively new and are characterized by numerous taxes and frequently changing legislation, which is often unclear, contradictory, and subject to interpretation. Often, differing interpretations exist among different tax authorities within the same jurisdictions and among taxing authorities in different jurisdictions. Taxes are subject to review and investigation by a number of authorities, which are enabled by law to impose severe fines, penalties and interest charges. In the Russian Federation a tax year remains open for review by the tax authorities during the three subsequent calendar years; however, under certain circumstances a tax year may remain open longer. Recent events within the Russian Federation suggest that the tax authorities are taking a more assertive position in their interpretation and enforcement of tax legislation. Such factors may create taxation risks in the Russian Federation and other emerging markets where Group companies operate substantially more significant than those in other countries where taxation regimes have been subject to development and clarification over long periods.

The tax authorities in each region may have a different interpretation of similar taxation issues which may result in taxation issues successfully defended by the Group in one region being unsuccessful in another region. There is some direction provided from the central authority based in Moscow on particular taxation issues.

The Group has implemented tax planning and management strategies based on existing legislation at the time of implementation. The Group is subject to tax authority audits on an ongoing basis, as is normal in the Russian environment and other republics of the former Soviet Union, and, at times, the authorities have attempted to impose additional significant taxes on the Group. Management believes that it has adequately met and provided for tax liabilities based on its interpretation of existing tax legislation. However, the relevant tax authorities may have differing interpretations and the effects on the financial statements, if the authorities were successful in enforcing their interpretations, could be significant.

Litigation and claims

On November 27, 2001, Archangel Diamond Corporation (“ADC”), a Canadian diamond development company, filed a lawsuit in the District Court of Denver, Colorado against OAO “Arkhangelskgeoldobycha” (“AGD”), a Group company, and the Company (together the “Defendants”). ADC alleged that the Defendants interfered with the transfer of a diamond exploration license to Almazny Bereg, a joint venture between ADC and AGD. ADC claimed total damages of approximately \$4.8 billion, including compensatory damages of \$1.2 billion and punitive damages of \$3.6 billion. On October 15, 2002, the District Court dismissed the lawsuit for lack of personal jurisdiction. This ruling was upheld by the Colorado Court of Appeals on March 25, 2004. On November 21, 2005, the Colorado Supreme Court affirmed the lower courts’ ruling that no specific jurisdiction exists over the Defendants. By virtue of this finding, AGD (the holder of the diamond exploration license) was dismissed from the lawsuit. The Supreme Court found, however, that the trial court made a procedural error by not holding an evidentiary hearing before making its ruling concerning general jurisdiction regarding the Company, which is whether the Company had systematic and continuous contacts in the State of Colorado at the time the lawsuit was filed. In a modified opinion dated December 19, 2005, the Colorado Supreme Court remanded the case to the Colorado Court of Appeals (instead of the District Court) to consider whether the lawsuit should have been dismissed on alternative grounds (i.e., forum non conveniens). On June 29, 2006, the Colorado Court of Appeals declined to dismiss the case based on forum non conveniens. The Company filed a petition for certiorari on August 28, 2006 asking the Colorado Supreme Court to review this decision. This petition has been rejected. On March 5, 2007, the Colorado Supreme Court remanded the case to the District Court. On June 11, 2007, the District Court ruled it would conduct an evidentiary hearing on the issue of whether the Company is subject to general personal jurisdiction in the State of Colorado. The hearing has been set for early December. Management does not believe that the ultimate resolution of this matter will have a material adverse effect on the Group’s financial condition.

Note 19. Commitments and contingencies (continued)

On February 20, 2004, the Stockholm District Court overturned the decision of the Arbitral Tribunal of the Arbitration Institute of the Stockholm Chamber of Commerce (“Arbitration Tribunal”) made on June 25, 2001 dismissing ADC’s action against AGD based on lack of jurisdiction. ADC’s lawsuit against AGD was initially filed with the Arbitral Tribunal claiming alleged non-performance under an agreement between the parties and its obligation to transfer the diamond exploration license to Almazny Bereg. This lawsuit claimed compensation of damages amounting to \$492 million. In March 2004, AGD filed an appeal against the Stockholm District Court decision with the Swedish Court of Appeals. On November 15, 2005, the Swedish Court of Appeals denied AGD’s appeal and affirmed the Stockholm District Court decision. On December 13, 2005, AGD filed an appeal against the Swedish Court of Appeals decision with the Swedish Supreme Court. On April 13, 2006, the Swedish Supreme Court denied the application of AGD for appeal against the Swedish Court of Appeal’s decision dated November 15, 2005. On May 6, 2006, a Notice of Arbitration was received on behalf of ADC. On December 20, 2006, the first session of the Arbitration Tribunal with participation of both parties took place in order to define procedural issues related to the tribunal. As a result of the hearing the Arbitration Tribunal issued a detailed procedural order setting out the rules and timetable for the conduct of the arbitration. In May 2007, ADC filed a statement of claim that requested the Tribunal to require AGD to transfer the diamond exploration license to Almazny Bereg. AGD is required to defend this claim in October 2007. The hearing into issues primarily relating to liability, if any, is currently scheduled to take place in June 2008. Management does not believe that the ultimate resolution of this matter will have a material adverse effect on the Group’s financial condition.

The Group is involved in various other claims and legal proceedings arising in the normal course of business. While these claims may seek substantial damages against the Group and are subject to uncertainty inherent in any litigation, management does not believe that the ultimate resolution of such matters will have a material adverse impact on the Group’s operating results or financial condition.

Note 20. Related party transactions

In the rapidly developing business environment in the Russian Federation, companies and individuals have frequently used nominees and other forms of intermediary companies in transactions. The senior management of the Company considers that the Group has appropriate procedures in place to identify and properly disclose transactions with related parties in this environment and has disclosed all of the relationships identified which it deemed to be significant. Related party sales and purchases of oil and oil products were primarily to and from affiliated companies and the Company’s shareholder ConocoPhillips. Insurance services are provided by the related parties, whose management and directors include members of the Group’s management.

Below are related party transactions not disclosed elsewhere in the financial statements. Refer also to Notes 4, 5, 7, 11, 12, 13, 16, 17, 18 and 21 for other transactions with related parties.

Sales of oil and oil products to related parties were \$211 million, \$178 million, \$386 million and \$350 million during the three months ended June 30, 2007 and 2006 and during the six months ended June 30, 2007 and 2006, respectively.

Other sales to related parties were \$18 million, \$5 million, \$34 million and \$9 million during the three months ended June 30, 2007 and 2006 and during the six months ended June 30, 2007 and 2006, respectively.

Purchases of oil and oil products from related parties were \$310 million, \$539 million, \$603 million and \$983 million during the three months ended June 30, 2007 and 2006 and during the six months ended June 30, 2007 and 2006, respectively.

Other purchases from related parties were \$5 million, \$6 million, \$11 million and \$27 million during the three months ended June 30, 2007 and 2006 and during the six months ended June 30, 2007 and 2006, respectively.

Note 20. Related party transactions (continued)

Purchases of insurance services from related parties were \$33 million, \$34 million, \$73 million and \$71 million during the three months ended June 30, 2007 and 2006 and during the six months ended June 30, 2007 and 2006, respectively.

Amounts receivable from related parties, including loans and advances, were \$613 million and \$121 million as of June 30, 2007 and December 31, 2006, respectively. Amounts payable to related parties were \$105 million and \$89 million as of June 30, 2007 and December 31, 2006, respectively.

Note 21. Compensation plan

During the period from 2003 to 2006, the Company had a compensation plan available to certain members of management, which provided compensation based upon share appreciation rights on the Company's common stock. The number of shares or rights allocated to individuals under the plan was approximately 8.8 million shares. These rights vested in December 2006.

In relation to this plan the Group has accrued a liability of \$537 million, included in "Other current liabilities" of the consolidated balance sheet as of December 31, 2006 and recognized \$66 million and \$269 million of compensation expense during the three and six month periods ended June 30, 2006. In February 2007, the Group settled the plan. As a result of this settlement employees purchased approximately 8.8 million shares held by the Group as treasury stock at the grant price for \$129 million and resold approximately 1.5 million shares back to the Group for \$134 million. The accrued liability in relation to this plan of \$537 million was extinguished through the issuance of approximately 7.3 million shares.

In December 2006, the Company introduced a new compensation plan to certain members of management for the period from 2007 to 2009, which is based on assigned phantom shares and provides compensation consisting of two parts (the "Phantom share plan"). The first part represents annual bonuses that are based on the number of assigned phantom shares and amount of dividend per share. The payment of these bonuses is contingent on the Group meeting certain financial KPIs in each financial year. The second is based upon the Company's common stock appreciation from 2007 to 2009 with rights vesting after the date of the compensation plan's termination. The number of assigned phantom shares is approximately 15.5 million shares.

For the first part of the Phantom share plan the Group recognizes a liability based on expected dividends and number of assigned phantom shares.

The second part of the Phantom share plan is classified as equity. The grant date fair value of the plan is estimated at \$289 million. The fair value was estimated using the Black-Sholes-Merton option-pricing model, assuming a risk-free interest rate of 6.00% per annum, an expected dividend yield 1.59% per annum, expected term of three years and a volatility factor of 30.07%. The expected volatility factor was estimated based on the historical volatility of the Company's shares for the previous three year period up to January 2007.

Related to this plan the Group recorded \$61 million of compensation expense during the six month period ended June 30, 2007 of which \$50 million is recognized as an increase in additional paid-in capital and \$11 million is included in "Other long-term liabilities" of the consolidated balance sheet as of June 30, 2007. The total recognized tax benefit related to this accrual is \$15 million.

As of June 30, 2007, there was \$239 million of total unrecognized compensation cost related to unvested benefits. This cost is expected to be recognized periodically by the Group up to December 2009.

OA O LUKOIL**Notes to Interim Consolidated Financial Statements (unaudited)**
(Millions of US dollars, unless otherwise noted)**Note 22. Segment information**

Presented below is information about the Group's operating and geographical segments for the periods ended June 30, 2007 and 2006, in accordance with SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information."

The Group has four operating segments – exploration and production; refining, marketing and distribution; chemicals and other business segments. These segments have been determined based on the nature of their operations. Management on a regular basis assesses the performance of these operating segments. The exploration and production segment explores for, develops and produces primarily crude oil. The refining, marketing and distribution segment processes crude oil into refined products and purchases, sells and transports crude oil and refined petroleum products. The chemicals segment refines and sells chemical products. Activities of the other business operating segment include the development of businesses beyond the Group's traditional operations.

Geographical segments have been determined based on the area of operations and include three segments. They are Western Siberia, European Russia and International.

Operating segments**For the three months ended June 30, 2007**
