Independent auditors' report on review of interim condensed consolidated financial statements

To the Supervisory Council and Shareholders of VTB Bank:

Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of VTB Bank ("the Bank") and its subsidiaries (together "the Group") as at 31 March 2011, comprising of the interim condensed consolidated statement of financial position as at 31 March 2011 and the related interim condensed consolidated income statement and interim condensed consolidated statement of comprehensive income for the three-month period then ended, interim condensed consolidated statements of cash flows and changes in shareholders' equity for the three-month period then ended and selected explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, "*Interim Financial Reporting*" ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of work

We conducted our review in accordance with the International Standard on Review Engagements 2410, "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

1. Principal Activities

VTB Bank and its subsidiaries (the “Group”) comprise Russian and foreign commercial banks, and other companies and entities controlled by the Group.

VTB Bank, formerly known as Vneshtorgbank (the “Bank”, or “VTB”), was formed as Russia’s foreign trade bank under the laws of the Russian Federation on 17 October 1990. In 1998, following several reorganisations, VTB was reorganized into an open joint stock company. In October 2006 the Group started re-branding to change its name from Vneshtorgbank to VTB. Simultaneously, the names of some of VTB’s subsidiaries were changed as presented in Note 28. In March 2007, the Bank for Foreign Trade was renamed into “VTB Bank” (Open Joint-Stock Company).

On 2 January 1991, VTB received a general banking license (number 1000) from the Central Bank of the Russian Federation (CBR). In addition, VTB holds licenses required for trading and holding securities and engaging in other securities-related activities, including acting as a broker, a dealer and a custodian, and providing asset management and special depositary services. VTB and other Russian Group banks are regulated and supervised by the CBR and the Federal Financial Markets Service. Foreign Group banks operate under the bank regulatory regimes of their respective countries.

On 29 December 2004, the Bank became a member of the obligatory deposit insurance system provided by the State Corporation “Deposit Insurance Agency”. All Group subsidiary banks in Russia: VTB 24, CJSC and TransCreditBank, JSC are also members of the obligatory deposit insurance system provided by the State Corporation “Deposit Insurance Agency”. The State deposit insurance scheme implies that the State Corporation “Deposit Insurance Agency” guarantees repayment of individual deposits up to the maximum total amount of guaranteed payment of RUR 700 thousand with a 100% compensation of deposited amount from 1 October 2008.

On 5 October 2005, VTB re-registered its legal address to 29 Bolshaya Morskaya Street, Saint-Petersburg 190000, Russian Federation. VTB’s Head Office is located in Moscow.

A list of major subsidiaries, associates and joint ventures included in these interim condensed consolidated financial statements is provided in Note 28.

The Group operates predominantly in the commercial banking sector. This includes deposit taking and commercial lending in freely convertible currencies and in Russian Roubles, support of clients’ export/import transactions, foreign exchange, securities trading, and trading in derivative financial instruments. The Group’s operations are conducted in both Russian and international markets. The Group’s operations are not subject to seasonal fluctuations. The Group conducts its banking business in Russia through VTB as a parent and 2 subsidiary banks with its network of 122 full service branches, including 72 branches of VTB, 8 branches of VTB 24 and 42 branches of TransCreditBank, located in major Russian regions. In March VTB North-West ceased its operations as a subsidiary of VTB following the legal merger of VTB and VTB North-West.The Group operates outside Russia through 12 bank subsidiaries, located in the Commonwealth of Independent States (“CIS”) (Armenia, Ukraine, Belarus, Kazakhstan and Azerbaijan), Europe (Austria, Cyprus, Germany, France and Great Britain), Georgia, Africa (Angola) and through 2 representative offices located in Italy and China and through 2 VTB branches in China and India and 2 branches of “VTB Capital”, Plc in Singapore and Dubai.

VTB’s majority shareholder is the Russian Federation state, acting through the Federal Property Agency, which holds 75.5% of VTB’s issued and outstanding shares at 31 March 2011 (31 December 2010: 85.5%).

In February 2011, the Russian Federation state, acting through the Federal Property Agency, reduced its share from 85.5% to 75.5% of VTB’s issued and outstanding shares as a result of offering in the form of shares and global depositary receipts.

The number of employees of the Group at 31 March 2011 was 53,311 (31 December 2010: 51,781).

Unless otherwise noted herein, all amounts are expressed in billions of Russian Roubles rounded off to one decimal.

2. Operating Environment of the Group

Russia continues economic reforms and development of its legal, tax and regulatory frameworks as required by a market economy. The future stability of the Russian economy is largely dependent upon these reforms and developments and the effectiveness of economic, financial and monetary measures undertaken by the government.

The Russian economy is vulnerable to market downturns and economic slowdowns elsewhere in the world. In 2010 the Russian Government continued to take measures to support the economy in order to overcome the consequences of the global financial crisis. Despite some indications of recovery there continues to be uncertainty regarding further economic growth, access to capital and cost of capital, which could negatively affect the Group's future financial position, results of operations and business prospects.

Also, factors including increased unemployment in Russia, reduced corporate liquidity and profitability, and increased corporate and personal insolvencies, may affect the Group's borrowers' ability to repay the amounts due to the Group. In addition, changes in economic conditions may result in deterioration in the value of collateral held against loans and other obligations. To the extent that information is available, the Group has reflected revised estimates of expected future cash flows in its impairment assessment.

While management believes it is taking appropriate measures to support the sustainability of the Group's business in the current circumstances, unexpected further deterioration in the areas described above could negatively affect the Group's results and financial position in a manner not currently determinable.

3. Basis of Preparation

General

These interim condensed consolidated financial statements ("financial statements") have been prepared in accordance with International Accounting Standard (IAS) 34 *Interim Financial Reporting*. As a result, they do not include all of the information required by International Financial Reporting Standards (IFRS) for a complete set of financial statements. Operating results for the three-month period ended 31 March 2011 are not necessarily indicative of the results that may be expected for the year ending 31 December 2011. The Bank and its subsidiaries and associates maintain their accounting records in accordance with regulations applicable in their country of registration. These interim condensed consolidated financial statements are based on those accounting books and records, as adjusted and reclassified to comply with International Accounting Standard 34 *Interim Financial Reporting.*

These interim condensed consolidated financial statements have been prepared under the historical cost convention, as modified by the initial recognition of financial instruments based on fair value, revaluation of premises and investment property, available-for-sale financial assets, and financial instruments categorized as at fair value through profit or loss.

The preparation of financial statements requires management to make estimates and assumptions that affect reported amounts. These estimates are based on information available as of the date of the financial statements. Actual results can differ significantly from such estimates. Judgments and significant estimates in these financial statements are consistent with those applied in the preparation of the Group's annual financial statements for the year ended 31 December 2010. Income tax expense in respect of the current tax assets and liabilities is recognized based on the income tax rates enacted by the end of the reporting period in relevant tax jurisdictions where the Group presents. Income tax expense in respect of the deferred tax assets and liabilities is measured at the income tax rates that are expected to apply to the period when deferred assets are realized or liability are settled based on the income tax rates officially enacted by the end of the reporting period.

These interim condensed consolidated financial statements should be read in conjunction with the complete consolidated financial statements as of 31 December 2010.

These interim condensed consolidated financial statements are presented in Russian Roubles (RUR), the national currency of the Russian Federation, where the Bank is domiciled.

At 31 March 2011, the principal closing rate of exchange used for translating balances in USD to Russian Roubles was USD 1 to RUR 28.4290 (at 31 December 2010: USD 1 to RUR 30.4769), and the principal closing rate of exchange used for translating balances in Euro was EUR 1 to RUR 40.0223 (at 31 December 2010: EUR 1 to RUR 40.3331).

4. Adoption of New or Revised Standards and Interpretations

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2010, except for the adoption of new standards and interpretations as of 1 January 2011, noted below:

IAS 32 Financial Instruments: Presentation – Classification of Rights Issues (effective for annual periods beginning on or after 1 February 2010) – The Amendment was issued in October 2009. It exempts certain rights issues of shares with proceeds denominated in foreign currencies from classification as derivatives. The amendment does not have any impact on the Group's financial statements.

IAS 24 Related Party Disclosures (effective for annual periods beginning on or after 1 January 2011) – IAS 24 was revised in November 2009 by: (a) simplifying the definition of a related party, clarifying its intended meaning and eliminating inconsistencies; and by (b) providing a partial exemption from the disclosure requirements for government-related entities. The Group has not applied the exemption provided for government-related entities in the revised IAS 24 and disclosed all transactions with government-related entities.

IFRS 1 First-time Adoption of International Financial Reporting Standards – Amendment: Limited Exemption from Comparative IFRS 7 Disclosures for First-time Adopters (effective for annual periods beginning on or after 1 July 2010). – Existing IFRS preparers were granted relief from presenting comparative information for the new disclosures required by the March 2009 amendments to IFRS 7, *Financial Instruments: Disclosures*. This amendment to IFRS 1 provides first-time adopters with the same transition provisions as included in the amendment to IFRS 7. The amendment does not have any impact on the Group's financial statements.

IFRIC 14 IAS 19 – The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction – Amendment: Prepayments of a Minimum Funding Requirement (effective for annual periods beginning on or after 1 January 2011). – This amendment will have a limited impact as it applies only to companies that are required to make minimum funding contributions to a defined benefit pension plan. It removes an unintended consequence of IFRIC 14 related to voluntary pension prepayments when there is a minimum funding requirement. The amendment does not have any impact on the Group's financial statements.

IFRIC 19 Extinguishing Financial Liabilities with Equity Instruments (effective for annual periods beginning on or after 1 July 2010) – The interpretation clarifies the accounting for the transactions when the terms of a financial liability are renegotiated and result in the entity issuing equity instruments to a creditor of the entity to extinguish all or part of the financial liability. IFRIC 19 does not have any impact on the Group's financial statements.

Improvements to International Financial Reporting Standards (issued in May 2010 and effective for annual periods beginning on or after 1 January 2011). The improvements consist of a mixture of substantive changes and clarifications in the following standards and interpretations: IFRS 1 was amended (i) to allow previous GAAP carrying value to be used as deemed cost of an item of property, plant and equipment or an intangible asset if that item was used in operations subject to rate regulation, (ii) to allow an event driven revaluation to be used as deemed cost of property, plant and equipment even if the revaluation occurs during a period covered by the first IFRS financial statements and (iii) to require a first-time adopter to explain changes in accounting policies or in the IFRS 1 exemptions between its first IFRS interim report and its first IFRS financial statements; IFRS 3 was amended (i) to require measurement at fair value (unless another measurement basis is required by other IFRS standards) of non-controlling interests that are not present ownership interest or do not entitle the holder to a proportionate share of net assets in the event of liquidation, (ii) to provide guidance on acquiree's share-based payment arrangements that were not replaced or were voluntarily replaced as a result of a business combination and (iii) to clarify that the contingent considerations from business combinations that occurred before the effective date of revised IFRS 3 (issued in January 2008) will be accounted for in accordance with the guidance in the previous version of IFRS 3; IFRS 7 was amended to clarify certain disclosure requirements, in particular (i) by adding an explicit emphasis on the interaction between qualitative and quantitative disclosures about the nature and extent of financial risks, (ii) by removing the requirement to disclose carrying amount of renegotiated financial assets that would otherwise be past due or impaired, (iii) by replacing the requirement to disclose fair value of collateral by a more general requirement to disclose its financial effect, and (iv) by clarifying that an entity should disclose the amount of foreclosed collateral held at the reporting date and not the amount obtained during the reporting period; IAS 1 was amended to clarify the requirements for the presentation and content of the statement of changes in equity with regard to a reconciliation between the carrying amount at the beginning and the end of the period for each component of equity either in the statement of changes in equity or in the notes to the financial statements; IAS 27 was amended by clarifying the transition rules for amendments to IAS 21, 28 and 31 made by the revised IAS 27 (as amended in January 2008); IAS 34 was amended to add additional examples of significant events and transactions requiring disclosure in a condensed interim financial report, including transfers between the levels of fair value hierarchy, changes in classification of financial assets or changes in business or economic environment that affect the fair values of the entity's financial instruments; and IFRIC 13 was amended to clarify measurement of fair value of award credits. The amendments do not have any material effect on the Group's financial statements.

In February 2011, VTB partially redeemed Series 9 Eurobonds in the amount of EUR 195.4 million (RUR 7.8 billion) under investor put option.

In February 2011, VTB 24 redeemed domestic bonds in the amount of RUR 10.0 billion under investor put option.

17. Subordinated Debt

On 29 September 2005, OJSC "Industry and Construction Bank" (further renamed to OJSC "Bank VTB North-West") issued USD 400 million subordinated Eurobonds due September 2015 with early redemption option (1 October 2010; price 100; type call). The Eurobonds bear interest rate at 6.2% p.a. payable semi-annually. From 1 October 2010 interest rate under the Eurobonds is equal to US Treasury yield increased by 226 b.p. and step-up of 150 b.p. In August 2010 the Group announced a decision not to exercise the redemption option. The transaction was structured as an issue of notes by Or-ICB S.A. (Luxembourg) for the purpose of financing a subordinated loan to OJSC "Bank VTB North-West". At 31 March 2011 the carrying amount of this subordinated debt was RUR 9.8 billion (31 December 2010: RUR 10.2 billion).

In October and November 2008, VTB received two subordinated loans of RUR 100 billion each with a rate of 8% p.a. maturing in December 2019 from Vnesheconombank (VEB), which is a related party to the Group. At 31 December 2008 in accordance with IAS 20 "Accounting for Government Grants and Disclosure of Government Assistance" the Group discounted these loans using an appropriate market rate adjusted for loan premium. In August 2010 an interest rate on these two subordinated loans was reduced from 8% to 6.5% p.a. in accordance with the Federal Law requirements. At 31 March 2011 the carrying amount of this subordinated debt is RUR 178.4 billion (31 December 2010: RUR 178.0 billion).

Over a period from 2003 to 2009 "TransCreditBank", JSC received subordinated loans from JSC "RZD" and its related parties in the aggregate amount of RUR 13.1 billion with interest rates from 9% p.a. to 12.1% p.a. maturing in the period from December 2012 to January 2020. At 31 March 2011 the carrying amount of this subordinated debt is RUR 14.7 billion. At 31 December 2010 the carrying amount of these subordinated loans was RUR 14.5 billion which represented the fair value determined on the acquisition date for the consolidation purposes.

In July 2009, TransCreditBank, JSC received a subordinated loan of RUR 2.9 billion with an interest rate of 8% p.a. maturing in October 2019 from Vnesheconombank (VEB), which is a related party to the Group. In August 2010 an interest rate on this subordinated loan was reduced from 8% to 6.5% p.a. in accordance with the Federal Law requirements. At 31 March 2011 the carrying amount of this subordinated debt is RUR 2.8 billion. At 31 December 2010 the carrying amount of this subordinated loan was RUR 2.8 billion, which represented the fair value determined on the acquisition date for the consolidation purposes.

22. Basic and Diluted Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss attributable to ordinary shareholders of the parent by the weighted average number of ordinary shares in issue during the period, excluding the average number of ordinary shares purchased by the Group and held as treasury shares.

The Group has no dilutive potential ordinary shares; therefore, the diluted earnings per share are equal to basic earnings per share.

	For the three-month period ended 31 March (unaudited)	
	2011	***2010***
Net profit attributable to shareholders of the parent	26.0	15.3
Weighted average number of ordinary shares in issue	10,458,358,836,655	10,457,751,703,349
Basic and diluted earnings per share (expressed in Russian Roubles per share)	**0.0025**	**0.0015**

23. Income Tax

The Group's effective income tax rate for the first three months of 2011 was 21% (the first three months of 2010: 17%) which is close to the theoretical tax rate. The effective income tax rate for the first three months of 2010 was lower than theoretical tax rate due to difference associated with events adjusting current tax, related to prior periods, which materialized subsequent to the date of release of the 2009 financial statements.

The following tables provide disclosure of income tax effects relating to each component of other comprehensive income for the three months ended 31 March 2011 and 31 March 2010:

24. Contingencies, Commitments and Derivative Financial Instruments

Legal proceedings. From time to time and in the normal course of business, claims against the Group are received. At the reporting date the Group had several unresolved legal claims. Management is of the opinion that there would be no material outflow of resources and accordingly no material provision has been made in these financial statements.

Credit related commitments. The primary purpose of these instruments is to ensure that funds are available to a customer as required. Guarantees that represent irrevocable assurances that the Group will make payments in the event that a customer cannot meet its obligations to third parties carry the same credit risk as loans. Documentary and commercial letters of credit (L/Cs), which are written undertakings by the Group on behalf of a customer authorizing a third party to draw drafts on the Group up to a stipulated amount under specific terms and conditions, are collateralized by cash deposits and therefore carry less risk than direct borrowings.

Commitments to extend credit represent unused portions of authorizations to extend credit in the form of loans, guarantees, or letters of credit. With respect to credit risk on commitments to extend credit, the Group is potentially exposed to loss in an amount equal to the total unused commitments. However, the likely amount of loss is less than the total unused commitments since most commitments to extend credit are contingent upon customers maintaining specific credit standards and/or the Bank confirming its willingness to extend a loan.

(in billions of Russian Roubles)

24. Contingencies, Commitments and Derivative Financial Instruments (continued)

The Group monitors the term to maturity of credit related commitments because longer-term commitments generally have a greater degree of credit risk than shorter-term commitments.

The total outstanding contractual amount of undrawn credit lines, letters of credit and guarantees does not necessarily represent future cash requirements, as these financial instruments may expire or terminate without being funded.

Outstanding credit related commitments are as follows:

	31 March 2011 (unaudited)	*31 December 2010*
Guarantees issued	229.6	216.5
Undrawn credit lines	183.2	190.3
Import letters of credit	29.1	29.2
Commitments to extend credit	192.9	176.3
Less: allowance for impairment on credit related commitments (Note 21)	(1.6)	(1.6)
Total credit related commitments	**633.2**	**610.7**

The Bank received export letters of credit for further advising to its customers. The total amount of received letters of credit as at 31 March 2011 was RUR 104.4 billion (31 December 2010: RUR 154.0 billion). Commitments under import letters of credit and guarantees are collateralized by customer deposits of RUR 10.1 billion (31 December 2010: RUR 9.6 billion).

At 31 March 2011, included in guarantees issued are guarantees issued for a related Russian company of RUR 26.0 billion or 11% of the guarantees issued. At 31 December 2010, included in guarantees issued are guarantees issued for 2 related Russian companies of RUR 48.1 billion or 22% of the guarantees issued.

Movements in the allowance for impairment on credit related commitments are disclosed in Note 21.

Fair value hedges

Fair value hedges are used by the Group to protect it against the changes in the fair value of financial assets and financial liabilities due to movements in interest and currency rates. The financial instruments hedged for interest rate risk and currency risk include debt securities issued.

For the period ended 31 March 2011, the Group recognized a net gain of RUR 0.7 billion, representing the gain on the hedging instruments. The net loss on hedged items attributable to the hedged risk amounted to RUR 0.7 billion for the period ended 31 March 2011. At 31 March 2010 the Group had no fair value hedges.

25. Analysis by Segment

In accordance with IFRS 8, *Operating Segments*, the Group defined as the primary operating segments its key business lines. This segment disclosure is presented on the basis of IFRS compliant data of legal entities of the Group adjusted, where necessary, for intersegment reallocation and managerial adjustments. Qualitative and quantitative information about operating segments is reported to the appropriate operating decision makers for the purposes of making operating decisions on allocation of resources to the segment and assessment of its performance. On this basis, the Group aggregated these operating segments in accordance with IFRS 8 into the following reportable segments: Corporate-Investment banking (Investment banking, Loans and Deposits, Transaction banking subsegments), Retail banking, TransCreditBank, CIS and Georgia, Europe and Other.

Revenues disclosed in the note include the following: interest income, fee and commission income, other operating income, income arising from non-banking activities, gains less losses from financial assets available-for-sale, gains less losses arising from financial assets at fair value through profit or loss, gains less losses from dealing in foreign currencies together with foreign exchange translation gains less losses, gains less losses arising from extinguishment of liability and share in income of associates. Each element is included in calculation of revenues by each subsegment / segment without subsegments in case it is positive for this subsegment / segment without subsegments. The totals are calculated as sum of the line components.

For the purpose of disclosure of the information on geographical areas of the Group non-current assets include the following: investments in associates, premises and equipment, investment property and intangible assets and goodwill.

Intersegment transactions were executed predominantly in the normal course of business.

26. Fair Value Hierarchy

The Group classifies fair value measurements of financial instruments using the following fair value hierarchy:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: all inputs in valuation models are directly or indirectly observable;
- Level 3: inputs in valuation models are not based on observable market data.

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy as at 31 March 2011 (unaudited):

	Level 1	*Level 2*	*Level 3*	*Total*
Financial assets				
Non-derivative financial assets at fair value through profit or loss				
Financial assets held for trading	251.2	40.9	2.0	**294.1**
Financial assets designated as at fair value through profit or loss	21.5	1.5	2.8	**25.8**
Trading Derivative financial instruments	*0.4*	*46.3*	*1.1*	***47.8***
Hedging Derivative financial instruments	*–*	*0.7*	*–*	***0.7***
Financial assets pledged under repurchase agreements and loaned financial assets

The tables above illustrate the classification of the Group's financial instruments based on the fair value hierarchy as required for complete sets of financial statements. This classification provides a reasonable basis to illustrate the nature and extent of risks associated with those financial instruments.

Financial assets at fair value through profit or loss are mainly dependent on the change of input variables used to determine fair value, such as interest rates and foreign exchange rates. A significant portion of the available-for-sale financial assets in Level 3 is invested in shares of a non-listed companies which are valued based on non-market observable information. Changes in assumptions can lead to adjustments in the fair value of the investment.

26. Fair Value Hierarchy (continued)

The Group enters into a number of cross currency interest rate swaps to hedge the risks associated with fluctuating foreign exchange rates and interest rates for bonds issued by the Group. Changes in foreign exchange rates, interest rates and other basic assets for those derivatives not designated in hedge relationships therefore have a direct impact on the financial assets and liabilities recognized in the statement of financial position.

26. Fair Value Hierarchy (continued)

Transfers between levels

During the period ended 31 March 2011, the Group transferred financial assets designated as at fair value through profit or loss from level 3 to level 2 of the fair value hierarchy. The carrying amount of the total assets transferred was RUR 0.3 billion. The reason for the transfers from Level 3 to Level 2 is that inputs to the valuation models became observable. Prior to transfer, the fair value of the instruments was determined incorporating significant non market-observable inputs.

There have been no transfers from Level 1 to Level 2 and from Level 2 to Level 1 during the period ended 31 March 2011.

During the period ended 31 March 2010, the Group transferred financial assets designated as at fair value through profit or loss and financial assets available-for-sale from Level 3 to Level 2 of the fair value hierarchy. The carrying amount of the total assets transferred was RUR 1.6 billion and RUR 0.6 billion correspondingly. The reason for the transfers from Level 3 to Level 2 is that inputs to the valuation models became observable. Prior to transfer, the fair value of the instruments was determined incorporating significant non market-observable inputs.

There have been no transfers from Level 1 to Level 2 and from Level 2 to Level 1 during the period ended 31 March 2010.

27. Related Party Transactions

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions as defined by IAS 24 *Related Party Disclosures*. In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form.

Transactions and balances with related parties comprise transactions and balances with Russian government-related entities (both directly and indirectly) and associates and joint ventures and are stated in the tables below:
