

CONSOLIDATED INTERIM CONDENSED FINANCIAL STATEMENTS THREE MONTHS ENDED MARCH 31, 2011 AND 2010

Report of Independent Accountants

To the Board of Directors and Shareholders of OAO Tatneft:

We have reviewed the accompanying consolidated interim condensed balance sheet of OAO Tatneft and its subsidiaries as of March 31, 2011, and the related consolidated interim condensed statements of operations and comprehensive income, of shareholders' equity and of cash flows for the three-month periods ended March 31, 2011 and March 31, 2010. This interim condensed financial information is the responsibility of the Company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial information taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying consolidated interim condensed financial information for it to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet of OAO Tatneft and its subsidiaries as of December 31, 2010, and the related consolidated statements of operations and comprehensive income, of shareholders' equity, and of cash flows for the year then ended (not presented herein), and in our report dated April 22, 2011, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated condensed balance sheet information as of March 31, 2011, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

Note 1: Organization

OAO Tatneft (the "Company") and its subsidiaries (jointly referred to as "the Group") are engaged in crude oil exploration, development and production principally in the Republic of Tatarstan ("Tatarstan"), a republic within the Russian Federation. The Group also engages in refining and marketing of crude oil and refined products as well as production and marketing of petrochemicals (see Note 9).

The Company was incorporated as an open joint stock company effective January 1, 1994 (the "privatization date") pursuant to the approval of the State Property Management Committee of the Republic of Tatarstan (the "Government"). All assets and liabilities previously managed by the production association Tatneft, Bugulminsky Mechanical Plant, Menzelinsky Exploratory Drilling Department and Bavlinsky Drilling Department were transferred to the Company at their book value at the privatization date in accordance with Decree No. 1403 on Privatization and Restructuring of Enterprises and Corporations into Joint-Stock Companies. Such transfers were considered transfers between entities under common control at the privatization date, and were recorded at book value.

As of March 31, 2011 and December 31, 2010 OAO Svyazinvestneftekhim, a company wholly owned by the government of Tatarstan, together with its subsidiary, hold approximately 36% of the Company's voting stock. These shares were contributed to Svyazinvestneftekhim by the Ministry of Land and Property Relations of Tatarstan in 2003. Tatarstan also holds a "Golden Share", a special governmental right, in the Company. The exercise of its powers under the Golden Share enables the Tatarstan government to appoint one representative to the Board of Directors and one representative to the Revision Committee of the Company as well as to veto certain major decisions, including those relating to changes in the share capital, amendments to the Charter, liquidation or reorganization of the Company and "major" and "interested party" transactions as defined under Russian law. The Golden Share currently has an indefinite term. The Tatarstan government, including through OAO Svyazinvestneftekhim, also controls or exercises significant influence over a number of the Company's suppliers and contractors.

Note 2: Basis of Presentation

The entities of the Group maintain their accounting records and prepare their statutory financial statements principally in accordance with the Regulations on Accounting and Reporting of the Russian Federation ("RAR"). The accompanying financial statements have been prepared from these accounting records and adjusted as necessary to comply with accounting principles generally accepted in the United States of America ("US GAAP").

The unaudited consolidated interim condensed financial statements have been prepared in accordance with US GAAP for interim financial reporting of public companies "Interim Financial Reporting" and do not include all disclosures necessary required by US GAAP. The Company omitted disclosures which would substantially duplicate the disclosures contained in its 2010 audited consolidated financial statements, such as accounting policies and details of accounts which have not changed significantly in amount or composition. Management believes that the disclosures are adequate to make the information presented not misleading if these interim condensed financial statements are read in conjunction with the Company's 2010 audited consolidated financial statements and the notes related thereto. In the opinion of the Company's management, the unaudited consolidated interim condensed financial statements and notes thereto reflect all known adjustments, all of which are of a normal and recurring nature, necessary to fairly state the Company's financial position, results of operations and cash flows for the interim periods.

The results for the three-month period ended March 31, 2011 are not necessarily indicative of the results expected for the full year.

Use of estimates in the preparation of financial statements. The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosures of contingent assets and liabilities. While management uses its best estimates and judgments, actual results could differ from those estimates and assumptions used. Among the estimates made by the management are: assets valuation allowances, depreciable lives, oil and gas reserves, pensions, asset retirement costs and income taxes.

Foreign currency transactions and translation. Management has determined that the functional currency of the Group, except for subsidiaries located outside of the Russian Federation, is the Russian Rouble because the majority of its revenues, costs, property and equipment purchased, debt and trade liabilities are either priced, incurred, payable or otherwise measured in Russian Roubles. Accordingly, transactions and balances not already measured in Russian Roubles (primarily US Dollars) have been re-measured into Russian Roubles in accordance with the relevant provisions of ASC 830 Foreign Currency matters.

TATNEFT

Notes to Consolidated Interim Condensed Financial Statements (Unaudited)

(in millions of Russian Roubles)

Note 2: Basis of Presentation (continued)

Under ASC 830, revenues, costs, capital and non-monetary assets and liabilities are translated at historical exchange rates prevailing on the transaction dates. Monetary assets and liabilities are translated at exchange rates prevailing on the balance sheet date. Exchange gains and losses arising from re-measurement of monetary assets and liabilities that are not denominated in Russian Roubles are credited or charged to operations.

For operations of subsidiaries located outside of the Russian Federation, that primarily use US Dollars as the functional currency, adjustments resulting from translating foreign functional currency assets and liabilities into Russian Roubles are recorded in a separate component of shareholders' equity entitled accumulated other comprehensive income or loss. Gains or losses resulting from transactions in other than the functional currency are reflected in net income.

The official rate of exchange, as published by the Central Bank of Russia ("CBR"), of the Russian Rouble ("RR") to the US Dollar ("US \$") at March 31, 2011 and December 31, 2010 was RR 28.43 and RR 30.48 to US Dollar, respectively. Average rate of exchange for the three months ended March 31, 2011 and March 31, 2010 was RR 29.27 and RR 29.89 per US Dollar, respectively.

Principles of consolidation and long-term investments. The accompanying consolidated interim condensed financial statements include the operations of all majority-owned, controlled subsidiaries and VIEs, where the Group is the primary beneficiary. Joint ventures and affiliates in which the Group has significant influence but not control are accounted for using the equity method. Intercompany transactions and accounts are eliminated on consolidation. Other long-term investments are carried at cost and adjusted for estimated impairment. The Group reviews equity method investments for impairment on an annual basis, and records impairment when circumstances indicate that an other-than-temporary decline in value has occurred. The amount of the impairment is based on quoted market prices, where available, or other valuation techniques, including discounted cash flows. Equity investments and investments in other companies are included in "Long-term investments" in the consolidated interim condensed balance sheet.

Income taxes. Deferred income tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, except for deferred taxes on income considered to be permanently reinvested in foreign subsidiaries. Deferred tax assets and liabilities are measured using enacted tax rates in the periods in which these temporary differences are expected to reverse. Valuation allowances are provided for deferred income tax assets when management believes that it is more likely than not those such assets will not be realized.

The Group applies the authoritative guidance of ASC 740, Income taxes, which prescribe a comprehensive model for recognizing, measuring, presenting and disclosing in the financial statements uncertain tax positions that the Company or its subsidiaries have taken or expect to take in their income tax returns. Income tax penalties expense and income tax penalties payable are included in Taxes other than income tax in the consolidated statements of income and Taxes payable in the consolidated balance sheets, respectively. Income tax interest expense and payable are included in Interest expense in the consolidated statements of income and other accounts payable and accrued expenses in the consolidated balance sheets, respectively.

Recent accounting pronouncements. In January 2010, ASU No. 2010-6, Fair Value Measurements and Disclosures, was issued. The ASU amends ASC 820, Fair Value Measurements and Disclosures, and requires separate disclosures of transfers in and out Level 1 and Level 2 fair value measurements and the reasons for the transfers. Also the ASU requires disclosure of activity in Level 3 fair value measurements on a gross basis rather than as one net number. The guidance requires the Group to provide fair value measurement disclosure for each class of assets and liabilities as well as disclosures about valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements that fall either in Level 2 or Level 3. The provisions of this ASU became effective for the Group on 1 January 2010 with the exception of disclosure of activity in Level 3 fair value measurements which was effective on 1 January 2011. The adoption of this guidance had no material effect on the Group's results of operations, financial position or liquidity.

In February 2010, ASU No. 2010-9, Amendments to Certain Recognition and Disclosure Requirements, was issued and became effective for the Group upon issuance. This ASU amends ASC 855, Subsequent Events, and requires an entity which is either a Securities and Exchange Commission filer or a conduit bond obligor for conduit debt securities that are traded in a public market to evaluate subsequent events through the date that the financial statements are issued. An entity that meets neither of those criteria is required to evaluate subsequent events through the date the financial statements are available to be issued. Pursuant to the requirements of this ASU, the Group evaluates subsequent events through the date the financial statements are available to be issued.

Note 3: Acquisitions and Divestitures

In February 2010 the Group submitted a request to redeem its entire interest in IPCG Fund. The redemption request was accepted by IPCG Fund and was effected on March 31, 2010 through the delivery to the Group of 47.5 million of Tatneft shares, loans receivable from Bank Zenit in the amount of USD 48 million, cash of USD 102 million and a 28.6% interest in MARS Emerging Markets Fund Limited valued at USD 18 million. As a result of the redemption and divestment from the IPCG Fund, the Group ceased to hold 8 million treasury shares resulting in an increase in additional paid in capital of RR 881 million.

Note 4: Accounts Receivable

Accounts receivable are as follows:

	At I	March 31, 2	011	At De	ecember 31,	2010

Foreign currency debts are primarily denominated in US Dollars.

Short-term foreign currency denominated debt. In December 2003 the Group entered into a RR 1,034 million (US \$35 million) one month revolving credit facility with Credit Suisse Zurich. The monthly revolving loan bears interest at one month LIBOR plus varying margin of 2% and 2.05% per annum and is collateralized by crude oil sales. The amount of loan outstanding as of March 31, 2011 and December 31, 2010 was RR 747 million (US \$26 million) and RR 4 million (US \$0.1 million), respectively.

In 2008 and 2009 the Group entered into credit agreements with BNP Paribas Geneva for RR 4,688 million (US \$155 million) in aggregate. The loans bear interest from 1.78% to 5.78% per annum and are collateralized by total crude oil sales of 344 thousand tons. The amount of loans outstanding as of December 31, 2010 was RR 716 million (US \$23.5 million). During the three months ended March 31, 2011 the Group repaid in full the credit agreements.

Short-term Russian rouble denominated debt. In August 2010, the Company entered into a RR 2,500 million (US \$82 million) credit agreement with AK Bars Bank. The loan bears interest 8% per annum and matures in March 2011. The amount of loans outstanding as of December 31, 2010 is RR 2,500 million (US \$82 million). The loan was repaid in full in February 2011.

Russian Rouble denominated short-term debt is primarily comprised of loans with Russian banks. Short-term Rouble denominated loans of RR 2,067 million and RR 5,061 million bear contractual interest rates of 8.0% to 10.0% per annum as of March 31, 2011 and December 31, 2010, respectively.

Note 6: Debt (continued)

Long-term foreign currency denominated debt. In October 2009, the Company entered into a dual (3 and 5 year) tranches secured syndicated pre-export facility for up to USD 1.5 billion arranged by WestLB AG, Bayerische Hypo-und Vereinsbank AG, ABN AMRO Bank N.V., OJSC Gazprombank, Bank of Moscow and Nordea Bank. The amount outstanding under this loan as of March 31, 2011 and December 31, 2010 was RR 30,509 million (US \$1,073 million) and RR 37,043 million (US \$1,215 million), respectively, including the current portion. As of March 31, 2011 this credit facility is collateralized with the contractual rights and receivables under an export contract between Tatneft and Tavit B.V. under which Tatneft supplies no less than 480,000 metric tones of oil in a calendar quarter. The loan agreement requires compliance with certain financial covenants including, but not limited to, minimum levels of consolidated tangible net worth, and interest coverage ratios. The loan bears interest at LIBOR plus 3.10% and 4.10% for the 3 and 5 year tranches, respectively. In February 2011 the Company reached an agreement to substantially decrease the amount of crude oil volumes used as collateral for this facility. The crude oil volumes used as collateral decreased to 360,000 metric tons of oil in a calendar quarter.

In June 2010, the Company entered into a triple (3, 5 and 7 year) tranches secured credit facility for up to USD 2 billion arranged by Barclays Bank PLS, BNP Paribas (Suisse) SA, Bank of Moscow, Bank of Tokyo-Mitsubishi UFJ, LTD, Citibank, N.A., Commerzbank Aktiengesellschaft, ING Bank N.V., Natixis SA, Nordea Bank, The Royal Bank of Scotland N.V., Sberbank, Société Générale, Sumitomo Mitsui Finance Dublin LTD, Unicredit Bank AG, VTB Bank and WestLB AG. The amount outstanding under this loan as of March 31, 2011 and December 31, 2010, was RR 56,858 million (US \$2,000 million) and RR 60,954 million (US \$2,000 million), including the current portion. The loan is collateralized with the contractual rights and receivables under an export contract between Tatneft and Tatneft Europe AG under which Tatneft supplies no less than 750,000 metric tones of oil in a calendar quarter. The loan agreement requires compliance with certain financial covenants including, but not limited to, minimum levels of consolidated tangible net worth, and interest coverage ratios. Prior to February 2011, the loan bore interest at LIBOR plus 3.10% for the 3-year tranche and 4.10% for the 5-year tranche. The 7-year tranche bears the interest of LIBOR plus 5%. In February 2011 the Company reached an agreement to decrease the margins. The margins were decreased to LIBOR plus 2.40% and 3.40% for the 3 and 5 year tranches, respectively.

Long-term Russian rouble denominated debt. In September 2010, the Group issued rouble exchange bonds in the amount of RR 5,000 million due in September 2013 at an interest rate of 7.25% per annum.

Loan arrangements on short-term and long-term debt have both fixed and variable interest rates that reflect the currently available terms for similar debt. The carrying value of this debt is a reasonable approximation of its fair value.

Note 7: TaxesThe Company is subject to a number of taxes other than income taxes, which are detailed as follows:

	Three months ended March 31, 2011	Three months ended March 31, 2010
Export duties	38,618	32,024
Unified production tax	19,991	16,304
Property tax	441	485
Excise taxes	168	94
Penalties and interest	20	11
Other	260	768
Total taxes other than income taxes	59,498	49,686

Effective January 1, 2007, the base tax rate formula for unified production tax was modified to provide a benefit for fields whose depletion rate exceeds 80% of proved reserves as determined under Russian resource classification. Under the new rules, the Company receives a benefit of 3.5% per field for each percent of depletion in excess of the 80% threshold.

Note 8: Fair Value Measurements

The estimated fair values of financial instruments are determined with reference to various market information and other valuation methodologies as considered appropriate, however considerable judgment is required in interpreting market data to develop these estimates. Accordingly, the estimates are not necessarily indicative of the amounts that the Company could realize in a current market transaction.

The net carrying values of cash and cash equivalents, short-term investments, short-term loans receivable, accounts receivable and payable approximate their fair values because of the short maturities of these instruments.

The Company implemented the provisions of ASC 820. The implementation of ASC 820 did not have a material effect on the Group's results of operations or consolidated financial position and had no effect on the company's existing fair-value measurement practices. However, ASC 820 requires disclosure of a fair-value hierarchy of inputs the Company uses to value an asset or a liability. The three levels of the fair-value hierarchy are described as follows:

Level 1: Valuations utilizing quoted, unadjusted prices for identical assets or liabilities in active markets that the Company has the ability to access. This is the most reliable evidence of fair value and does not require a significant degree of judgment. For the Group, Level 1 inputs include marketable securities that are actively traded on the Russian domestic markets.

Level 2: Valuations utilizing quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly for substantially the full term of the asset or liability.

Level 3: Valuations utilizing significant, unobservable inputs. This provides the least objective evidence of fair value and requires a significant degree of judgment. The Group does not use Level 3 inputs for any of its recurring fair-value measurements.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

Marketable securities: The Group has RR 8,928 million and RR 8,055 million in marketable securities as of March 31, 2011 and December 31, 2010, respectively. The Group calculates fair value for its marketable securities based on quoted market prices for identical assets and liabilities (Level 1 valuations).

IPCG Fund: IPCG Fund followed the accounting principles of the AICPA Audit and Accounting Guide "Investment Companies." Accordingly, IPCG Fund's investments were fair valued each reporting period primarily using, Level 2 inputs. The Company's carrying value of its investment in IPCG Fund at the redemption date, March 31, 2010, was RR 3,256 million.

Note 9: Segment Information

The Group's business activities are conducted predominantly through three business segments: exploration and production, refining and marketing and petrochemicals. The segments were determined according to how management recognizes the segments within the Group for making operating decisions and how they are evident from the Group structure.

Exploration and production segment activities consist of exploration, development, extraction and sale of own crude oil. Intersegment sales consist of other goods and services provided to other operating segments.

Refining and marketing comprises purchases and sales of crude oil and refined products from third parties, own refining activities and retailing operations.

Sales of petrochemical products include sales of tires and petrochemical raw materials and refined products, which are used in production of tires.

Other sales include revenues from ancillary services provided by the specialized subdivisions and subsidiaries of the Group, such as sales of oilfield equipment and drilling services provided to other companies in Tatarstan, revenues from the sale of auxiliary petrochemical related services and materials as well as other business activities, which do not constitute reportable business segments.

The Group evaluates performance of its reportable operating segments and allocates resources based on income or losses before income taxes and non-controlling interest not including interest income, expense, and earnings from equity investments, other income and monetary effects. Intersegment sales are at prices that approximate market.

Note 9: Segment Information (continued)

For the three months ended March 31, 2011, the Group had four customers which accounted for RR 94,238 million in crude oil sales, comprising 52%, 16%, 13% and 8% respectively of the crude oil sales by the Group during the three months. For the three months ended March 31, 2010, the Group had four customers which accounted for RR 62,138 million in crude oil sales, comprising 30%, 15%, 14% and 13% respectively of the crude oil sales by the Group during the three months. Management does not believe the Group is dependent on any particular customer.

Segment sales and other operating revenues. Reportable operating segment sales and other operating revenues are stated in the following table:

Note 11: Commitments and Contingent Liabilities

Guarantees. The Group has no outstanding guarantees at March 31, 2011 and December 31, 2010.

Operating environment. While there have been improvements in the economic situation in the Russian Federation in recent years, the country continues to display some characteristics of an emerging market. These characteristics include, but are not limited to, the existence of a currency that is not easily convertible in most countries outside of the Russian Federation and relatively high inflation. The prospects for future economic stability in the Russian Federation are largely dependent upon the effectiveness of economic measures undertaken by the government, together with legal, regulatory, and political developments.

Capital commitments. As of March 31, 2011 and December 31, 2010 the Group has outstanding capital commitments of approximately RR 30,295 million and RR 23,086 million, respectively, for the construction of the TANECO refinery complex. These commitments are expected to be paid between 2011and 2012.

Taxation. Russian tax and customs legislation is subject to varying interpretations, and changes, which can occur frequently. Management's interpretation of such legislation as applied to the transactions and activity of the Group may be challenged by the relevant authorities. The Russian tax authorities may be taking a more assertive position in their interpretation of the legislation and assessments, and it is possible that transactions and activities that have not been challenged in the past may be challenged. The Supreme Arbitration Court issued guidance to lower courts on reviewing tax cases providing a systemic roadmap for anti-avoidance claims, and it is possible that this will significantly increase the level and frequency of tax authorities scrutiny. As a result, significant additional taxes, penalties and interest may be assessed. Fiscal periods remain open to review by the authorities in respect of taxes for three calendar years preceding the year of review. Under certain circumstances reviews may cover longer periods.

Environmental contingencies. The Group, through its predecessor entities, has operated in Tatarstan for many years without developed environmental laws, regulations and Group policies. Environmental regulations and their enforcement are currently being considered in the Russian Federation and the Group is monitoring its potential obligations related thereto. The outcome of environmental liabilities under proposed or any future environmental legislation cannot reasonably be estimated at present, but could be material. Under existing legislation, however, management believes that there are no probable liabilities, which would have a material adverse effect on the operating results or financial position of the Group.

Legal contingencies. The Group is subject to various lawsuits and claims arising in the ordinary course of business. The outcomes of such contingencies, lawsuits or other proceedings cannot be determined at present. In the case of all known contingencies the Group accrues a liability when the loss is probable and the amount is reasonably estimable. Based on currently available information, management believes that it is remote that future costs related to known contingent liability exposures would have a material adverse impact on the Group's consolidated financial statements.

Social commitments. The Group contributes significantly to the maintenance of local infrastructure and the welfare of its employees within Tatarstan, which includes contributions towards the construction, development and maintenance of housing, hospitals and transport services, recreation and other social needs. Such funding is periodically determined by the Board of Directors after consultation with governmental authorities and recorded as expenditures when incurred.

Transportation of crude oil. The Group benefits from the blending of its crude oil in the Transneft pipeline system since the Group's crude oil production is generally of a lower quality than that produced by some other regions of the Russian Federation (mainly Western Siberia) which supply through the same pipeline system. There is currently no equalization scheme for differences in crude oil quality within the Transneft pipeline system and the implementation of any such scheme is not determinable at present. However, if this practice were to change, the Group's business could be materially and adversely affected.

Ukrtatnafta. Historically, and in particular during the course of 2007, there have been a number of attempts by Ukraine to challenge AmRUZ and Seagroup's acquisition of shares in Ukrtatnafta, and in particular, by the State Property Fund and NJSC Naftogaz of Ukraine ("Naftogaz"). Naftogaz is 100% owned by the Ukrainian Government and also owner of record of 43% Ukrtatnafta's common shares.

The challenges were suspended in April 2006 when the Supreme Court of Ukraine ruled the payment for Ukrtatnafta shares made with promissory notes issued by AmRUZ and SeaGroup was lawful. However, in May 2007 the Ministry of Fuel and Energy of Ukraine ("MFEU") resumed its attempts and, as a result, succeeded in obtaining alleged and doubtful court decisions, after which it announced the transfer into Naftogaz's custody the 18.3% of Ukrtatnafta's shares, representing the entire holdings of AmRUZ and SeaGroup in Ukrtatnafta. Subsequent to these actions, MFEU effectively began to exclude the Group from exercising their shareholder rights related to Ukrtatnafta.

Note 11: Commitments and Contingent Liabilities (continued)

In October 2007 the existing management of Ukrtatnafta, as appointed by its shareholders, was forcibly removed based on an alleged court order. Subsequently, individuals who obtained the ability to manage Ukrtatnafta took certain actions effectively assisting MFEU in taking control over the shares in Ukrtatnafta owned by SeaGroup and AmRUZ. In addition, Ukrtatnafta subsequently refused to settle its payables to ChMPKP Avto (Note 4), a Ukrainian intermediary that previously purchased crude from the Group for deliveries to Ukrtatnafta. Following this forced change of control of Ukrtatnafta, the Company (originally the key crude supplier to the Kremenchug refinery) suspended its crude oil deliveries to Ukrtatnafta and initiated legal proceedings against the Ukrainian owners in international arbitration. In November 2009 the Business Court of the City of the Poltava Region invalidated the initial purchase of 8.6% of Ukrtatnafta shares by the Company without payment of any compensation to the Company.

In May 2008, Tatneft commenced international arbitration against Ukraine on the basis of the agreement between the Government of the Russian Federation and the Cabinet of Ministries of Ukraine on the Encouragement and Mutual Protection of Investments of November 27, 1998 ("Russia-Ukraine BIT"). The arbitration concerns losses suffered by Tatneft as a consequence of the forcible takeover of Ukrtatnafta. Tatneft requested the arbitral tribunal declare Ukraine has breached the Russian-Ukraine BIT and to order MFEU to restore Ukrtatnafta's lawful management and pay compensation in excess of US\$ 2.4 billion. In September 2010 the arbitral tribunal issued an award confirming that all of Tatneft's claims are admissible and that the tribunal has jurisdiction over the claims. Tatneft's claims will now move forward to the merits stage with the award expected in 2012.

There are a number of legal proceedings currently in process in the Ukraine, Russian Federation and international courts to recover the Group's assets. As a result of the ongoing legal dispute over shareholding interests, as of March 31, 2011 the Company has fully provided for its investments in Ukrtatnafta.

Libya. As a result of military operations, established in Libya in March 2011 the Group had to entirely suspend its operations there and evacuate all its personnel. The Group is not certain if and when it will be able to resume its operations in Libya. Currently the Group is not able to assess the impact of these events on the Group's financial statements. As of December 31, 2010 the company had approximately RR 5,224 million of assets associated with its Libyan operations of which RR 4,781 million is related to capitalized exploration costs, RR 219 million of inventories and RR 224 million of cash. As of March 31, 2011 the company had approximately RR 5,379 million of assets associated with its Libyan operations of which RR 5,088 million is related to capitalized exploration costs, RR 207 million of inventories and RR 84 million of cash.
